Gary,

I talked to Jeff a few minutes ago and he mentioned this email from you to me. I told him I had not seen it. Jeff sent it just now and then I found the one you sent in my junk folder. I created a rule the other day to send all emails with "Jamie Olson" in the Subject line directly to my junk folder. Anyway, I agree with you. Let's wait and see if it's necessary depending on the results of the investigation.

Bill
