

Federal Statistics: Animal Deaths from M-44s and Compound 1080 in 2010

The following chart shows USDA Wildlife Services' data on animals killed by M-44s and Compound 1080 livestock protection collars as reported in 2010. Wildlife Services' total is 14,190. We believe these numbers are grossly underestimated and that Wildlife Services actively covers up non-target kills, especially the deaths of pets and endangered species.

Species	M-44		Compound 1080		TOTAL
	Intentional	Unintentional	Intentional	Unintentional	
Bears, Black		2			
Bobcat		2			
Coyote			25
